LHV,

Effective immediately the park is open for members only to access their site for the day for such things as landscaping and repairs. We are anxious to open for overnight camping as soon as we get the approval from State and Local levels. Once the approval has been made there will be a phase plan set in place to state directives and guidelines made by Lighthouse Village. Note all common areas must still remain closed (e.g. playground equipment, Clubhouse, bathrooms, showers, etc.). You must practice social distancing, and must use a face mask.

Thank you!!

LHV
